Join Us at the Community Input Sessions for the Illinois River Road Gateway and Portal Communities

As part of a comprehensive study currently underway, the purpose of these sessions is to gather input from community business members that will help identify areas of growth for small, authentic "byway businesses" throughout the Byway region. What is a "Byway Business"? A Byway Business is an authentic small business that contributes to the visitor's experience as they travel the Illinois River Road. Listed below are dates and times for the session closest to you.

For more information, contact Anaise Berry, Byway Director at 309.495.5909 or aberry@edc.h-p.org

Join a Community Input Session for your community!
